RSL Classic

RSL is known as one of the world's leading manufacturers of shuttlecocks, and RSL Classic is a shuttlecock in the absolute world class. RSL Classic is particularly known for its high recycling value, which means that many badminton clubs experience a greater saving in shuttlecock consumption.

The feathers for an RSL Classic go through a total of 19 steps in the selection process, before being approved to become part of one of the world's best shuttlecocks.

RSL Classic is made of a full goose feather construction, with a three piece cork base with a blend of natural cork and synthetic cork. This ensures a fantastic feeling with the shuttle, and the well known durability.

RSL Classic is an approved tournament shuttlecock by the BWF (Badminton World Federation).

**Shuttlecocks
of absolute top quality –
tested to the highest standards,
with precision in play,
economic advantage,
and carefully selected feathers.**

**Officially approved
for tournaments.**

RSL Classic Academy

The RSL Classic Academy is the newest shuttlecock from RSL. It is designed for players, who are looking for perfect durability and playability. This version of shuttlecocks contributes to reduced shuttlecock consumption.

The RSL Classic Academy shuttlecock is produced in 100% goose feathers to optimize the flight and durability.

RSL Classic Academy is perfect for training and tournaments, as it has a good consistency in flight quality and speed.

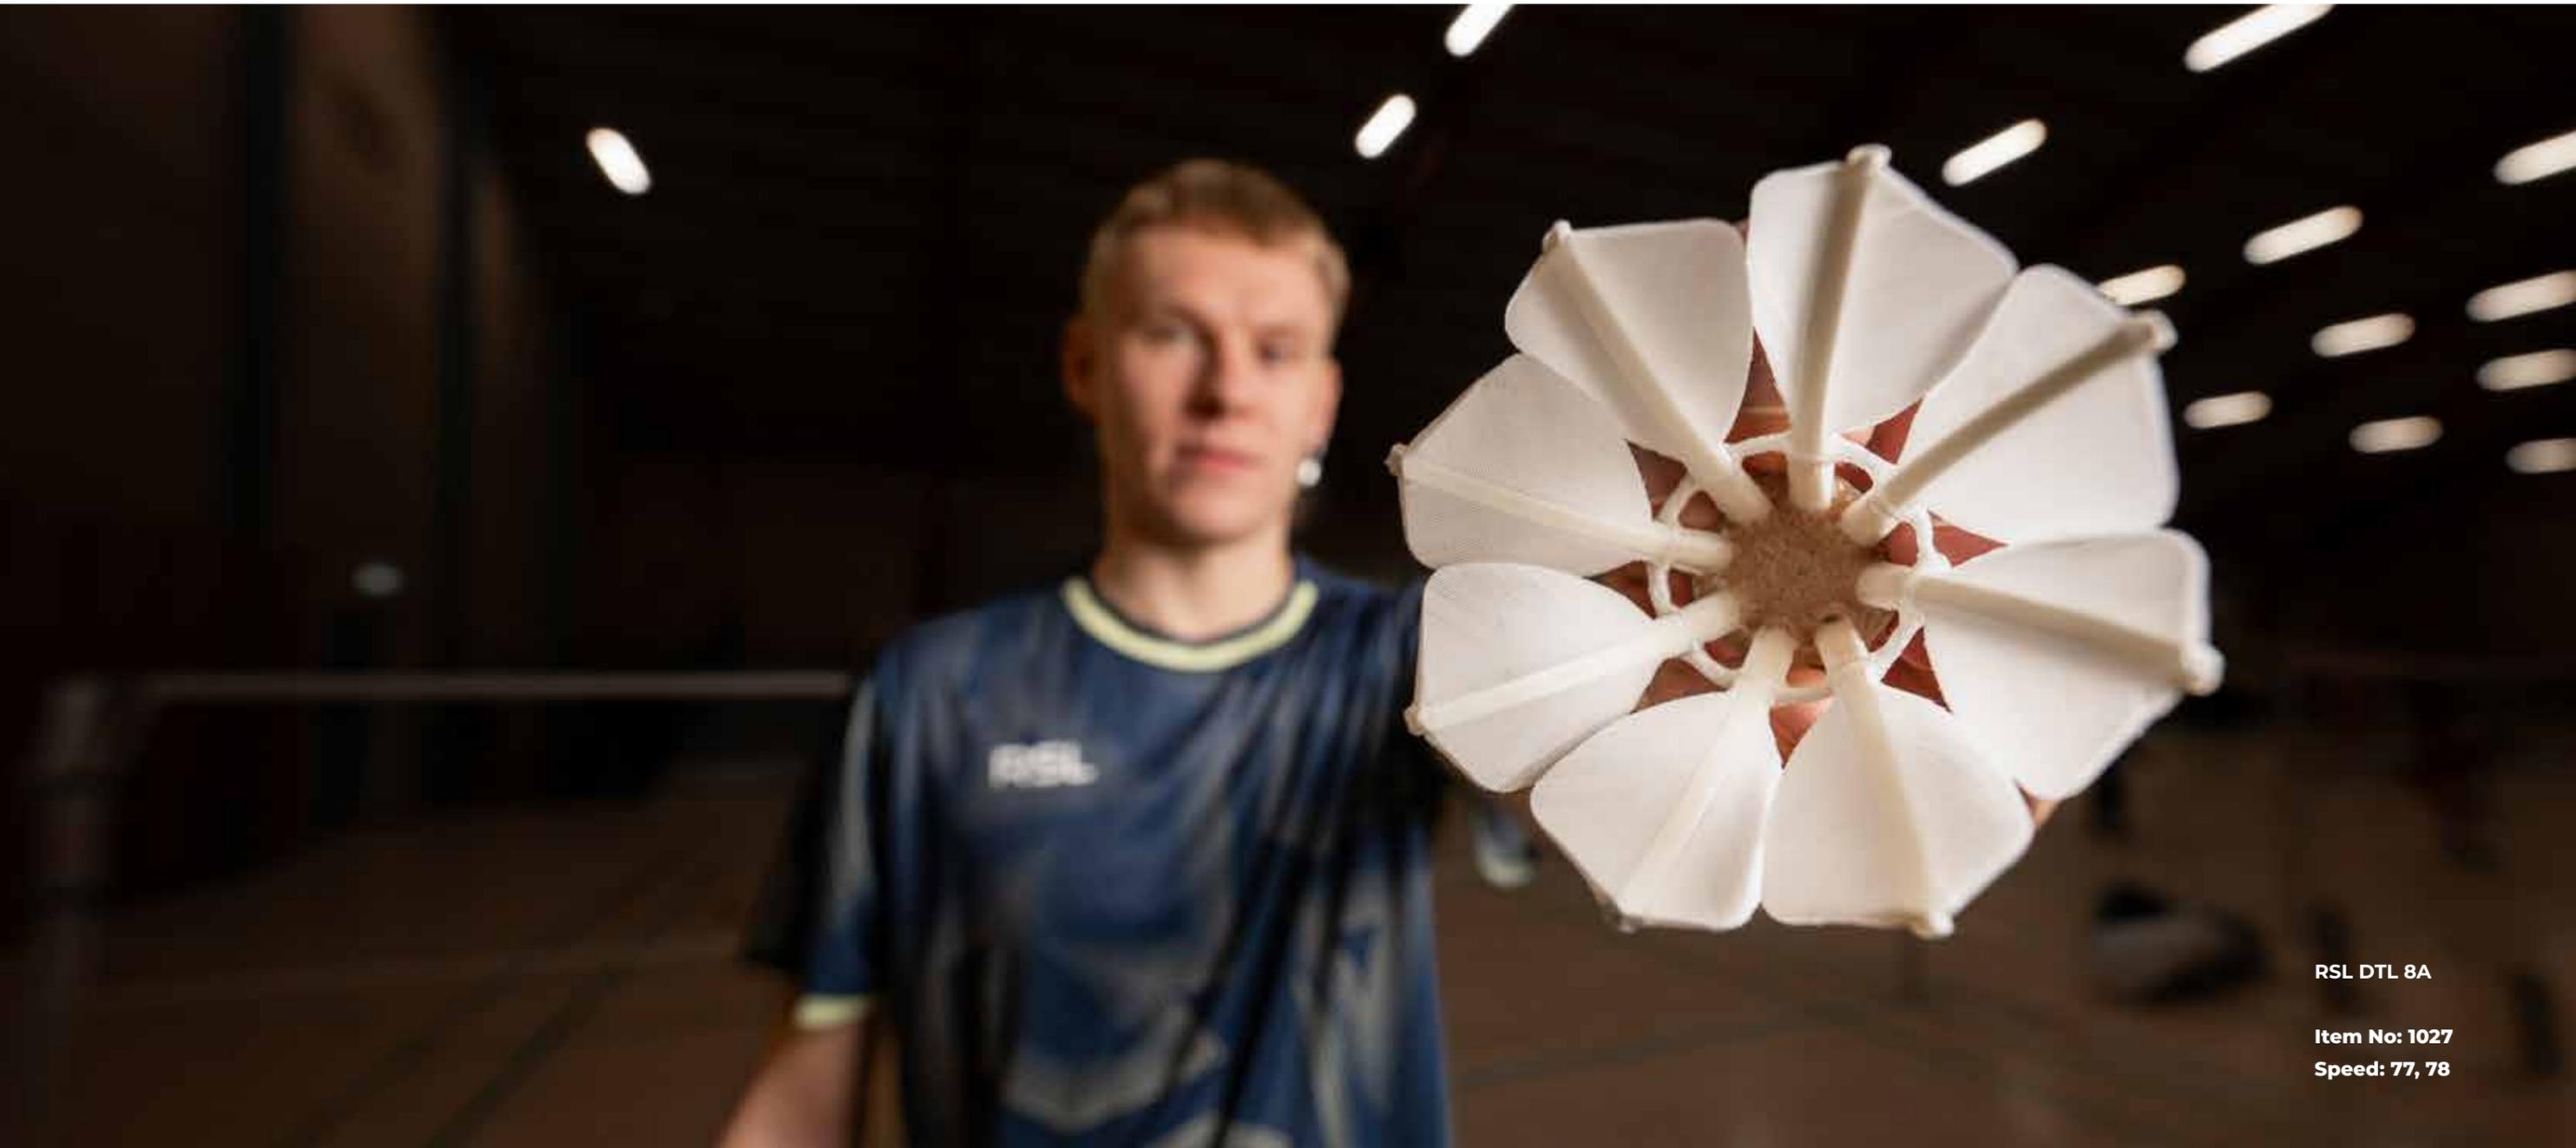

RSL Classic Academy is one of our most popular shuttlecocks.

RSL DTL 8A

Item No: 1027

Speed: 77, 78

Experience a new generation of shuttlecocks with the **RSL DTL 8A** – an innovative shuttle designed to deliver maximum durability and outstanding value for money.

With only **8 feathers** in its construction, the **RSL DTL 8A** breaks with tradition, yet maintains the authentic sound and feel you expect from a classic feather shuttlecock.

Benefits of the RSL DTL 8A

High durability

The reduced but thicker feather structure provides longer lifespan without compromising the playing experience.

Great value for money

A shuttlecock that forgives mistakes and offers stable performance. Ideal for clubs, beginners, and intermediate players who want more value for money.

Authentic sound and feel

Despite having fewer feathers, the **RSL DTL 8A** delivers the characteristic sound and flight you expect from a standard shuttlecock.

QUALITY. NO MATTER THE NUMBER.

RSL Tourney No. 1

RSL Tourney No. 1 is one of RSL's most recognized shuttlecocks, renowned for its durability and excellent playing performance. It is developed for players and clubs that require a reliable shuttle with consistent quality - every time.

Strict quality control:

Undergoes extensive testing to ensure a high and stable standard.

Optimal performance:

Delivers consistent flight and speed, ideal for both training and matches.

Internationally used:

Trusted by clubs both nationally and internationally, making it a favorite among badminton players.

Tournament approved:

Officially BWF approved and used in tournaments around the world.

Item No: 1013

Speed: 77, 78

RSL Tourney No. 2

RSL Tourney No. 2 is a quality shuttlecock with the same high standard as the other shuttlecocks in the Tourney series, and it is used by clubs at all levels across Europe.

Item No: 1014

Speed: 77, 78

RSL Tourney No. 3

RSL Tourney No. 3 is a real "value for money" shuttlecock. Both playing characteristics and durability come into their own in relation to the price. This shuttlecock is the best-selling shuttlecock in Europe.

RSL Tourney No. 4

RSL Tourney No. 4 is a very economical shuttlecock with a great correlation between quality and price. The shuttlecock does not have the same playing characteristics as the other shuttlecocks in the Tourney series, but clubs and associations are very satisfied with the durability.

RSL A9

The **RSL A9** shuttlecock offers reliable quality and consistent flight performance, making it a great choice for training and casual matches. Suitable for players seeking a great shuttle for everyday practice.

Foam injected frame
A foam injected frame that absorbs unwanted shock and vibrations.

Nano Technology
A combination that contributes to a 19% stronger frame and extra stability, thereby delivering more power and greater precision in shots.

Fiber Optimization Technology
By adjusting the angle of the fibers in the shaft structure, strength and stiffness are optimized.

Graphite Crystallite Fiber
Used to control the graphite's structure and orientation, making it possible to produce a racket with superior mechanical properties that meet the demanding standards of high quality.

**PULSE
AT-70 PRO
4U**

Item No: AT70P

RSL Pulse AT-70 Pro takes your power game to the next level. Here, an extra stiff shaft, a head heavy balance, and a standard weight are combined to deliver unmatched power in offensive play - without sacrificing control.

A top tier racket featuring the best technologies, designed for the player who seeks maximum power and prefers a clean, minimalist design.

**PULSE
AT-50
4U**
Item No: AT50

RSL Pulse AT-50 gives you an all-round feel in your game, providing an optimal combination of power and control. The **AT-50** stands out slightly from the other models in the Pulse series, as the weight balance sits a bit lower in the racket head compared to the rest, and a hollow shaft. Because of this, you won't achieve quite as much power, but instead you gain outstanding control and stability. The **AT-50** is designed with the same high-quality materials as the other Pulse models.

4on

4on Totalgrip Spray

200 ml Inhalt

TotalGrip ist ein hochentwickeltes Grip-Spray. Es verhindert Schweißbildung und bietet maximalen Grip, selbst bei Höchsttemperaturen.

Die feinen Partikel im Spray werden durch Feuchtigkeit aktiviert und sorgen für die gewünschte Klebrigkeit. Die so entstandene Griffbarkeit optimiert die Kontrolle über den Schläger.

Racketsport entwickelt

4on Totaldry Spray

50 ml Inhalt

TotalDry ist ein Antitranspirant-Spray ohne Kreidezusatz, das schnell in die Haut einzieht und speziell für den Racket-Sport entwickelt wurde.

Es reduziert den Handschweiß indem es die Poren verschließt und hinterlässt einen trockenen, nicht klebrigen Bereich auf der Hand.
